

Science Festival 2018-2019

The 11st Science Festival

On the 30th November our school organized the 11st annual Science Festival with **17 projects, 26 pupils**. Thanks to the enthusiastic teachers more than **900 students visited** the presentations on this day. And approximately another **900-1000 students followed the Festival via Life Stream**.

The jury panel (7 teachers from different languages sections and scientific field, last year's winner students and a parent representative) announced the final winners of the competition in the Senior and the Junior categories:

Juniors:

1st prize: High star fasion (S1PLB)

2nd prize: Hamster vs Le Minotaur. Donc teste de mémoire (S3PIA)

3rd prize: Ultraviolet light (S1En)

Seniors:

1st prize: EEB1 as a particle system (S6PIA)

2nd prize: Schlieren effect (S5PIA)

3rd prize: Conformative Psychology (S5EsA)

After a discussion the Jury finally made the selection of those students who can represent our school in different international competitions.

Science Fair

High star fasion (S1PLB)

Schlieren effect (S5PIA)

Ultraviolet light (S1En)

Conformative Psychology (S5EsA)
