## 2020-2021: 13rd Science Festival

This year we have organised our Science Festival despite of the pandemic, we went online! There were **29 pupils** participated in **23 projects**. This year we had an entire week when all the Science/Physics/Biology/Chemistry teachers had the opportunity to watch the projects online. Thanks to the enthusiastic teachers and students, we prolonged the week with 4 more days to have more chance to see everything.

In this period the videos was seen from **60 different classes**, they have seen **247 videos**, with a total of **4287 students**. The jury panel (from different languages sections and scientific field) announced the final winners of the competition in the Senior and the Junior categories:

### Juniors

- 1st prize:**Benjámín JOUTEUX – Interactions dans la cuisine – S1HuA**
- 2nd prize:**Igor WŁODARCZYK - Geolocation – how to put our school bus stops on a map? - S3PIB**
- 2nd prize:**Emmanuel VLAD - Une force dans les bulles de savon - S2FRB**
- 4th prize:**Alba WEINER - Is it possible to farm dust mites? - S2ENB**

### Seniors:

- 1st prize:**Julian Máthé - Fragmentation patterns in nature – S5EnA**
- 2nd prize:**Nicholas Cambas - What is the quickest way to melt ice?– S5EnA**

This year the audience vote for the best projects. The Audience awards goes to **Alba WEINER in Junior category, and Julian Máthé in Senior category.**

In this year the ESSS and the Science Fair is cancelled, so unfortunately we can't send any of the good projects to these competitions. But we are hoping, that next year we can continue.

This year we had **valuable prizes** as well: the 1<sup>st</sup> prize was **plasma lamp (Juniors) and Escape Game (Seniors)**, the 2nd prize was **24000mAh solar powerbank**, and the 4<sup>th</sup> prize was a **magnetic game**. The audience's award goes along with a **magnetic hour glass**.

Congratulations to all the participants, and thanks for everybody that helped us,

The Science Festival Team
