

The Mysterious Coral Reef by JH

One afternoon there were two sisters. They were mermaids. One was called Shela. She had ginger hair. She was the youngest. The second had brown hair and glasses. She was the eldest. They were having a swim near their house. They swam back in because it was lunch time.

The cook was a very famous cook in aqua land. (It was the town they lived in.) He made the most finest food you could ever dream of. The cook pushed a golden tray and on it there was :

- A very well roasted lion fish for the starter
- A big salmon with mashed sea sponge for main course.
- Sea strawberry ice cream for dessert.

After that they swam to the coral reef. When they got there the light was very strange. It seemed that the light came from a hole so they decided to dig. They dug and they dug until... a key! They found a key! It was beautiful. it was shiny. It was golden and silver at the same time! They looked at it for a long time.

They thought that it would be better to keep it a secret but before that they had to find out where the key fitted so they went into town and tried all the doors in town. While they were talking about the key a wizard was spying on them and making a very evil plan. When they nearly given up they saw a door behind the coral they tried the key and... it fit!! I help open the door and inside there was gold every where!

When they reached their house they hid the key under the bed. The wizard crawled in the room and took the key. He put the key in a big bag but the key made a hole in it. It made a loud ding so the girls woke up and put him in prison. Surprisingly he had a mask. He was the cook! They gave some gold to their family, poor and themselves! (very important).

The buffalo war

One day Alex and Jolly Fairy were playing hide and seek. Alex's mom was searching "1.2.3" Alex's mom continued, "Quick" whispered Alex. Then Jolly Fairy saw a hole to hide in.

When they entered the floor vibrated and the hole transformed into a slide. Then Alex and Jolly Fairy whooshed down and landed on a pile of bones. Alex and Jolly only managed to walk one inch when a radio announced that a war was going to start.

Then Alex and Jolly Fairy heard some galloping and a herd of buffalos arrived with dangers and swords. Luckily Alex and Jolly had dangers and swords and a quiver full of arrows and a bow each so they charged. Alex swung his sword around and sliced a buffalos head off.

Meanwhile Jolly Fairy shot an arrow right in a buffalos chest. While Alex was fighting a buffalos he got on his thumb and it was bleeding very badly.

Then Alex and Jolly Fairy heard a roar and all the buffalos galloped away. And a huge monster appeared. Alex and Jolly Fairy terified so they ran away. Suddenly they reached a dark cave. Alex said "I think we're safe".

After one hour they sneaked out and the monster

was right there waiting for them 5 meteres away. So they ran as they could and reached a bridge. It was very wobbly but they went on it anyway. Then they heard some galloping and buffalos came charging at them. That meant that they were going to fight some more. When Alex tried to pick up his sword his thumb broke, but he could not fight so he waited at the end of the bridge when the buffalos came they were so heavy they brok half the bridge. Alex and Jolly Fairy were terrified.

Then somthing that never happend before just happend. Jolly Fairy spit on her arrow and when she shot it at a buffalo the buffalo turned red then green and burned to ashes and after 5 minuts it turned into a butifull knight.

And when they orderd to kill all the buffalos he did. Then the radio said " If you want to go home get the dimond.

Suddenly a flash of silver light raced by it was the monster. It was heading for a dark forest.

then Alex, Jolly Fairy and of course the Knight dashed in with the monster. They knew wat he was after the Dimond. Then Alex yelled "run" and ran after monster. the monster was suprisingly fast but they werint going to giv up!

Then The Knight said in a nice calm voice, "Do you need any help." Alex turnd around he totally forgot about him. Then Alex said yes I want you to help us find the dimond. That will defeat the monster. "OK" said the Knight. Then he charged. he was as fast as the whol herd of buffalos.

Then Alex and Jolly Fairy and of course The Knight saw the Dimond. after a moment the monster saw it to.

Then the monster passed the knight. And the monster couit. And when he aimed it at them. A flash of blue light erupted From the tip of the Dimond

Then Jolly Fairy shot an arrow at the monsters hand and it dropped the Dimond

dropped the Dimond Then Alex flung himself to catch it and aimed at the monsters face

it roared so hard the floor shook and his face burned to ashes. Then all was left was hands, feet and body. Then Alex shot it one more time and the monster crumpled to ashes they had won after a second they teleported back.
